

COMPLEMENTARY FEED FOR HORSES

1. Description

- Brown paste

2. Intended use

Horses suffering from stomach irritation or gastric ulcers, tend to have a lack of appetite. For these horses, Cavalor has developed a paste which can be administered directly into the mouth of the horse. The fact that this product is a paste, causes a quicker absorption of the nutrients. Can be combined with Cavalor Gastro 8 (aid) powder.

3. Directions of use

Day 1 through 5 : 2 syringes/day

Day 6 through 10 : 1 syringe/day. Then possibly continue with Gastro Aid (Powder) or 1 syringe/day.

4. Product Features

- Gentian: Stimulates Saliva production, anthelmintic and antiseptic properties.
- Ginger: Protects the stomach mucus
- Chestnut extract creates a thin coating around the stomach wall to protect it from the irritation of acid.

5. Analysis
