PRÉPARATION AND RECOVERY

TEND'ARGILE

Ready to use clay

HORSE CARE PRODUCT

- To relieve / appease tendons, muscles and joints
- In case of local inflammation and / or swelling
- To promote recovery after exercise

Tend'Argile promotes the recovery of limbs and muscle mass after exercise. Thanks to its peppermint essential oil, the clay provides a refreshing effect and its peroxidized corn oil provides relaxing and decontracting properties.

Tend'Argile has absorbent properties that promote the elimination of toxins.

COMPOSITION

Velay clay, hyper oxygenated glycerol triester (peroxidized corn oil), peppermint essential oil, water.

2kg / 5kg bucket

Fabriqué en France

TEND'ARGILE

INSTRUCTIONS FOR USE

Apply a coat against the hair, then a second coat in the direction of the air. Leave on for several hours. It's possible to cover the clay with wet paper or resting strips. Remove the clay with water or brush dry.
