

Tranquility is a functional equine supplement formulated to support calm behaviour, mental balance, and stress reduction during demanding situations such as competition, transport, and veterinary visits.

1 MANUFACTURER

VetGen Animal Nutrition — specialised in performance and wellbeing products for horses (www.vetgen-nutrition.com).

The brand operates under EV Equine.

2 PRODUCT DESCRIPTION

Tranquility is a functional complementary feed for horses.

Purpose: to support a calm temperament, mental balance, and stress reduction — particularly in demanding situations (e.g. competitions, transport, veterinary visits).

3 EFFECTS & BENEFITS

- Supports a calm state of mind.
- May help maintain focus and resilience during critical moments.

4 INDICATIONS FOR USE

- Stress-related restlessness (e.g. noise, transport).
- Nervousness before, during, or after competitions or training.
- Situational stress (e.g. new environments or unusual routines).

5 RECOMMENDED USE

Timing	30–45 minutes before the anticipated stressful situation
Dosage	4–5 ml per administration, orally, or as directed
Guidance	Follow manufacturer instructions, or consult your retailer / veterinarian

6 INGREDIENTS

Water, magnesium chloride, fructose, and L-tryptophan.

According to the manufacturer, the formulation emphasises functional, calming ingredients. For the precise composition, please contact the manufacturer directly.

7 SAFETY & SIDE EFFECTS

No known side effects or contraindications.

Veterinary consultation is recommended to ensure safe use.

8 STORAGE & SHELF LIFE

Store upright in a dry place, protected from light.

Keep out of reach of children.

9 PACKAGING & FORM

Liquid product in a PET bottle with a tamper-safe cap, including a 5 ml dosing syringe. The bottle and syringe are packed together in a cardboard outer box.

10 AVAILABILITY

Available through VetGen Animal Nutrition — including equestrian retailers and the online store.

11 ADVICE & SUPPORT

VetGen provides contact channels for product support and usage guidance — including expert advice via retailers and the online store.
