

## COMPLEMENTARY FEED FOR HORSES

### 1. Description

---

- Beige powder

### 2. Intended use

---

Vitaflor 365 is a daily plus for the horse's health. Vitaflor 365 contains a high dose living yeast (= Pro-biotica) and Inuline (Pre-biotica). Scientific research has shown that the daily administration of yeast promotes the "good" bacteria and stabilises the pH factor in the intestine which enhances the digestion and absorption of important nutrients. The result is remarkable after a few weeks: the horse will get a shiny coat and his overall fitness will improve.

### 3. Directions of use

---

Dosage per animal per day:

- Foal: 10g
- Ponies and riding horses: 20g
- Sport horses: 30g
- Lactating and gestating horses: 40g
- Maximum per horse: 100g/day

### 4. Product Features

---

- Live yeast cultures: Living yeast supports bacteria using lactic acid in the colon, preventing acidification (lowering of the PH), ensuring that the micro organisms present work under optimal conditions. This improves the digestion of crude fibre, the absorption of minerals and the production and absorption of B-vitamins. Thus, a higher yield from the feed is obtained and the incidence of colic decreases.
- Bio-Mos: Bio-Mos are oligosaccharides derived from a specific strain of yeast and improves animal performance. Gastrointestinal health is essential for animal performance. Bio-Mos promotes good bacteria in the gastrointestinal tract and builds natural defenses thereby maximizing animal performance. Research has shown that Bio-Mos promotes a healthy weight gain.
- Inulin belongs to the family of the prebiotic compounds. These are non-digestible feed ingredients that beneficially affect the animal by selectively stimulating the growth and/ or activity of positive bacteria in the colon. As an indirect result, prebiotic administration inhibits some bad or pathogenic bacteria to develop. The result is an enhanced immunity in the intestines.

## 5. Analysis

---

Crude Protein	13.1%
Crude Fat	5.3%
Crude Ash	3.7%
Crude Fibre	5.7%
Phosphorus	0.1%
Calcium	0.65%

## 6. Storage & Packaging

---

- Pail 2 kg
- Keep dry and at mediate temperatures
- Use until 3 years after production date
