HOOF CARE

BIOTINE 2000

Support for hoof, hoof and skin regeneration

DIETETIC FEED SUPPLEMENT FOR HORSES

- Solidity and elasticity of the hooves
- Hair growth and strengthening

Biotin is an essential vitamin for optimum growth of the epidermal tissues, mainly hooves, hair and coat. The concentrated formula Biotin 2000 in association with zinc and folic acid provides **strength and elasticity** to the feet.

Regular use of Biotin contributes to healthy and strong feet. The quality of Biotin 2000 allows the **natural damping mechanism** of the foot to fully play its role. Never forget that sport performance starts in the feet!

BIOTINE 2000

INSTRUCTIONS FOR USE

Horses : 50g / day mixed with the ration for 1 month.

Ponies: 25g / day mixed with the ration for 1 month.

COMPOSITION

Wheat feed, high temperature dried alfalfa, carbonate of calcium, sugar cane molasses, sodium chloride, rapeseed vegetable oil.

ANALYTICAL CONSTITUENTS

Crude protein.....	11,9%
Crude fiber.....	10,9%
Crude fat.....	4,3%
Raw ash (mineral matter).....	21,1%
Phosphorus.....	0,4%
Calcium.....	4,2%
Sodium.....	2%
Magnesium.....	0,2%
Sulfur.....	1%
Lysine.....	0,4%
Threonine.....	0,4%
Tryptophan.....	0,1%

ADDITIVES

Vitamins

Biotine (3a880) 800 mg/kg

Vitamin A (3a672a)..... 50 000 mg/kg

Amino acids

3c301-DL-Technically pur

methionine.....20 000 mg/kg

3c391 L-Cystine.....12 000mg/kg

Trace elements

Copper (Copper (II) sulfate pentahydrate) (3b405).....3000 mg/kg

Zinc (zinc oxide) (3b603).....12 000 mg/kg
